## SPAIN'S CASE IS DELAYED 'TIL MONDAY

### Australia Urges Five-Man Committee Investigate Problem

(By Associated Press)  
NEW YORK, April 26.—The United Nations Security Council today received a new proposal from Australia that a five-man sub-committee be named to inquire into the Spanish question and then defer further consideration of the case until 3 p. m. Monday.

The council then adjourned at 11:23 a. m.

Immediately after Lt.-Col. W. R. Hodgson of Australia, presented his new draft of a resolution calling for a five-man sub-committee, Rafael La Collina, Mexican delegate, suggested that a vote be delayed until Monday to permit time to study the proposal and allow the delegates to get new instructions.

Hodgson told the council he had been successful in his attempts to find a compromise with the French delegate, Henri Bonnet, and the Polish delegate, Dr. Oscar Lange.

The resolution stated specifically that it was the duty of the council and not the sub-committee to decide what should be done about Franco Spain.

Hodgson pointed out, however, that the proposal gave the sub-committee wide powers to decide where and how the inquiry is to be made.

The Hodgson move today was the result of overnight efforts to arrive at a formula that might enable the delegates for once to render a unanimous decision but Russia has come out against any inquiry or investigation.

Soviet Delegate Andrei A. Gromyko declared flatly during yesterday's debate he would not vote for any investigation such as that proposed by Hodgson. As a result, most of the delegates had given up hope for unanimity.

**Australian Proposal**  
The Australian proposal, as amended up to the close of yesterday's session, called for:

1. Creation of a five-man sub-committee to investigate whether the situation in Spain endangers international peace and security.

2. A declaration, similar to those made at Potsdam, San Francisco and London, condemning the Franco regime.

This subcommittee would collect all pertinent evidence and documents which are available and sift the facts for presentation to the council as a whole. It would have no authority to make recommendations.

The latter point is where the controversy arises. The French and Polish delegates recommended the subcommittee be instructed to try to work out "practical measures" to be taken against the Franco regime, with the view of evolving a measure the council could adopt unanimously.

## Optimism Prevails At Big Four Parley

BY LOUIS NEVIN  
PARIS, April 26.—Foreign Secretary Ernest Bevin and Secretary of State James F. Byrnes conferred for more than an hour today as the deputy foreign ministers met at Luxembourg palace to discuss the afternoon agenda for the Big Four.

Both Bevin and Byrnes declined comment as they emerged from their conference.

Russia's decision to allow France to participate in discussions in Balkan treaties created a fresh atmosphere of optimism today as the four foreign ministers buckled down to their task of writing a new peace for Europe.

Discussion of the Italian peace treaty headed the agenda of the second-day meeting of the ministers of the United States, Britain,

## RAIL STRIKE DUE MAY 18

### Only Further Government Action Can Prevent Called Walkout

(By Associated Press)  
CLEVELAND, April 26.—Except for the possibility of further government action—for which there were wartime precedents—there appeared today little chance to head off a nationwide walkout of nearly 300,000 trainmen and engineers on May 18, halting rail traffic all over the country.

Originally scheduled to begin March 11, the strike was re-scheduled yesterday as the two brotherhoods turned down the report of a presidential fact-finding board.

It could be forestalled if the nation's carrier made concessions in conferences which are too open in character Monday. But labor observers here doubted that this development was likely.

**Two Courses Open**  
Further government action could take two courses, either seizure and operation of the roads by federal authority, or a resumption of fact-finding efforts, through appointment of a new board or reconvening the old.

It was recalled that in December, 1943, and January, 1944, when all the rail unions scheduled strikes and rejected fact-finding reports, the War department took over the roads by presidential order. President Roosevelt as sole arbiter settled the case of the trainmen and engineers. The engineers and the switchmen declined to accept a similar settlement, but finally cancelled their strike call and signed an agreement with the carriers. The president convened a special board to settle the case of 15 non-operating brotherhoods.

A. F. Whitney, president of the trainmen, said yesterday "if the government calls us to Washington, we will go."

## State Official At Jr. C. of C. Dinner

More than 60 persons were present last night when the Salem Junior Chamber of Commerce entertained Ohio Jaycee President and Mrs. Charles Hazlett of Akron, at a dinner in the Lafe hotel.

Hazlett spoke on "Activities of the Junior Chamber of Commerce in Fitting Men for Civic Leadership."

Nominations of candidates for the May 9 election were accepted and final plans were made to send a group of delegates to the state convention in Toledo May 17-18-19. The Jaycees also discussed participation in a Lake Erie cruise aboard the S. S. Alabama June 19. The cruise is an annual affair sponsored by the Cleveland chapter.

Reports of the Salem cancer fund campaign, which is being sponsored by the Jaycees, were given.

**Molotov Changes Mind**  
Soviet Foreign Minister V. M. Molotov, unexpectedly reversing a decision he had announced last year at the London foreign ministers' conference, said yesterday he had no objection to French observers attending discussions of treaties with the Balkans and Finland.

The United States also will sit in without a vote on the discussions on Finland.

Delegates to the conference, most of whom had come to Paris with few optimistic hopes, said Molotov's action might indicate that Moscow would prove to be more conciliatory on other issues.

This new optimism was tempered somewhat by the fact that Molotov was reported to have objected strenuously yesterday to proposals by U. S. Secretary Byrnes and French Foreign Minister Georges Bidault concerning Austria, the Ruhr basin and the Rhineland.

The United States reportedly asked the ministers to draft a treaty assuring independence for Austria, and France requested the internationalization of the Ruhr and the detachment of the Rhineland from Germany.

**No Vote Taken**  
Molotov objected to adding these subjects to the agenda on the grounds they were unforeseen developments which required thorough study, official quarters said. No vote was taken.

Both Byrnes and Bidault are expected to press for Russian reconsideration, with Bidault reportedly ready to demand that a decision on the German issue be made today.

Molotov made no explanation yesterday of his reversal on allowing French observers to participate in discussion of the Balkan and Finland treaties.

Under previous plans, adopted at Moscow last December, France was to participate only in the writing of the Italian treaty.

After Molotov's withdrawal of Soviet objections, the ministers decided that all four countries would attend discussions on all matters before the conference, but that votes would be limited to nations which had signed the armistice with the former enemy states involved.

**Frost Is Predicted For Ohio Tonight**

Frost was predicted for Ohio tonight, raising the possibility of damage to fruit trees already hit by low temperatures earlier this month after unseasonably warm weather.

Official forecasts said frost and possibly freezing temperature could be expected in central and northern Ohio, except along Lake Erie.

Meteorologist George Minding said at Columbus that the danger of damage from frost would be considerably lessened if present winds continued throughout the night, but he added that freezing temperatures would be especially hard on fruit trees now well advanced.

Minding said late reports indicated frost and freezing temperatures might extend into southern Ohio.

**BOY HELD TO JURY ON HOLDUP CHARGE**

A 17-year-old Warren youth pleaded not guilty to armed robbery charges today in juvenile court at Lisbon and was bound over to the grand jury on \$25,000 bond by Judge Milton E. Cope.

The youth is one of a trio arrested recently in Girard on charges of having robbed two roadside eating places in Columbiana county on March 23, and several other places in Girard, Youngstown and Sharon.

Witnesses from the McDonald Curb Service restaurant, near East Liverpool, identified the colored boy as one of the three who held up the place early that morning. The trio collected \$137 there and fled in a car.

Sheriff George Hayes arrested the Warren man after he had been released on bond on a similar charge in Trumbull county.

## Scenes of Railroad Disaster Which Killed 44

The above photos were taken shortly after Burlington's crack Exposition Flyer crashed into the rear end of the stalled Advance Flyer yesterday at Naperville, Ill., 29 miles west of Chicago, killing 44 passengers and injuring 125 others.

The terrific impact of the crash is evident from the demolished state of the car shown in the top photo.

In the bottom picture, rescue workers are shown removing one of the victims from the wreckage. Authorities declared the wreck was one of the worst railroad disasters in American history.

## OHIO BOARD ACTS ON LIQUOR FLOW

### Unrationed Whiskey, Gin Being Bootlegged By Bordering States

(By Associated Press)  
COLUMBUS, April 26.—The Ohio Liquor Control department acted today to halt alleged bootlegging of its unrationed whiskey and gin supplies into neighboring states, especially West Virginia, by stopping all case-lot sales of the two varieties and requiring individual purchasers to show their ration cards.

A. I. Balmert, assistant director, sent a bulletin to all district supervisors, retail and wholesale store managers, and state liquor agencies declaring:

"From certain sections of the state we have complaints that our supply of unrationed whiskey and dry gin is falling into the hands of bootleggers and out-of-state purchasers. Due to our inability at this time to secure greater quantities to supply our needs, if therefor become necessary until further notice, to restrict sales at retail."

Although most whiskey is rationed in Ohio, brands made from cane spirits as well as gins, rums and

Mr. and Mrs. Mounts kept open house Thursday afternoon and evening and received a large number of their relatives and friends. They were assisted by their daughter, Mrs. Joseph G. Smith of E. Third st.

The home was made attractive with bouquets of beautiful flowers, gifts to Mr. Mounts.

A family dinner was served at noon. The table was centered with an attractive floral arrangement.

Among the relatives in attendance were Mrs. Virgil Farr of Cleveland and Mrs. Martha Stuffer of Canton, twin sisters of the honoree, and J. A. Mounts of Youngstown, retired mail carrier, formerly of Salem.

Two other brothers, George H., who is in Palaska, Fla., and David, of Damascus, were unable to attend.

Other guests were from Sharon and New Castle, Pa.; Cleveland, Canton, Leetonia and Massillon.

Mr. Mounts has four children, Mrs. Rebecca Simonson and Clayton E. Mounts of Santa Monica, Calif.; Wallace Mounts of Warren and Mrs. Smith.

A son of Mr. and Mrs. Daniel Mounts, he was born April 25, 1865, at Mt. Union. He spent his boyhood days in North Georgetown and New Alexander.

Rev. Chester Stanley of Columbus, formerly of Damascus, was named president of the Ohio Yearly Meeting Ministers' association at the closing business session of the annual conference yesterday afternoon at the First Friends church.

He succeeds Rev. Amos Henry of Cleveland.

Rev. Harold Winn of Hughesville, Pa., formerly of Alliance, was elected vice president.

Miss Evangeline Smith of West Mansfield was re-elected secretary-treasurer. Rev. C. E. Haworth of Belmont, formerly of Salem, is member-at-large of the conference committee.

The two-day session closed last night with Rev. E. L. Cattell of Marengo, missionary to Central India, giving the message.

## Scenes of Railroad Disaster Which Killed 44

The above photos were taken shortly after Burlington's crack Exposition Flyer crashed into the rear end of the stalled Advance Flyer yesterday at Naperville, Ill., 29 miles west of Chicago, killing 44 passengers and injuring 125 others. The terrific impact of the crash is evident from the demolished state of the car shown in the top photo. In the bottom picture, rescue workers are shown removing one of the victims from the wreckage. Authorities declared the wreck was one of the worst railroad disasters in American history.

## OHIO BOARD ACTS ON LIQUOR FLOW

Unrationed Whiskey, Gin Being Bootlegged By Bordering States

(By Associated Press)  
COLUMBUS, April 26.—The Ohio Liquor Control department acted today to halt alleged bootlegging of its unrationed whiskey and gin supplies into neighboring states, especially West Virginia, by stopping all case-lot sales of the two varieties and requiring individual purchasers to show their ration cards.

A. I. Balmert, assistant director, sent a bulletin to all district supervisors, retail and wholesale store managers, and state liquor agencies declaring:

"From certain sections of the state we have complaints that our supply of unrationed whiskey and gin is falling into the hands of bootleggers and out-of-state purchasers. Due to our inability at this time to secure greater quantities to supply our needs, it therefore becomes necessary, until further notice, to restrict sales at retail."

Although most whiskey is rationed in Ohio, brands made from cane spirits as well as gins, rums and brandies are not.

## W.E. Mounts, Veteran Salem Tinner, Marks 80th Birthday

Willard E. Mounts, a tinner here for 57 years, observed his 80th birthday anniversary Thursday at his home, E. Fourth st.

Coming to Salem 57 years ago from North Georgetown, he immediately engaged in work as a tinner. For a number of years he operated a shop above the Carr hardware store, E. State st.

For the last 18 years his shop has been on N. Lundy ave., and his business is carried on under the firm name of the W. E. Mounts Co. Other members of the company are

Earl Chamberlain of Leetonia and Mrs. C. R. Votaw of Salem, bookkeeper. They employ five men.

Mr. Mounts is a deacon in the Christian church and a member of Amity lodge, I. O. O. F., and Philip Triem camp, Sons of Union Veterans.

Mr. and Mrs. Mounts kept open house Thursday afternoon and evening and received a large number of their relatives and friends. They were assisted by their daughter, Mrs. Joseph G. Smith of E. Third st.

The home was made attractive with bouquets of beautiful flowers, gifts to Mr. Mounts.

A family dinner was served at noon. The table was centered with an attractive floral arrangement. Among the relatives in attendance were Mrs. Virgil Farr of Cleveland and Mrs. Martha Stuffer of Canton, twin sisters of the honoree, and J. A. Mounts of Youngstown, retired mail carrier, formerly of Salem.

Two other brothers, George H. who is in Palaska, Fla., and David, of Damascus, were unable to attend.

Other guests were from Sharon and New Castle, Pa., Cleveland, Canton, Leetonia and Massillon. Mr. Mounts has four children. Mrs. Rebecca Simonson and Clayton E. Mounts of Santa Monica, Calif.; Wallace Mounts of Warren and Mrs. Smith.

A son of Mr. and Mrs. Daniel Mounts, he was born April 25, 1865, at Mt. Union. He spent his boyhood days in North Georgetown and New Alexander.

## 125 Injured as Flyer Crashes Into Another

(By Associated Press)  
NAPERVILLE, Ill., April 26.—At least 44 persons were killed when the Burlington railroad's fast Exposition flyer, racing through Chicago's western suburbs at better than a mile-a-minute clip, ripped into the road's advance flyer yesterday.

Thirty-one of the 125 persons injured remained in hospitals. Some were in critical condition. All but 10 of the dead had been identified.

The crash of the two steel car, diesel-powered trains occurred just 31 minutes after they left Chicago's Union station simultaneously at 12:35 p. m. C.S.T. on separate tracks, but after a few miles moved onto a single center track, with the advance flyer, which ran on a faster schedule, in the lead.

## BOOM PATTERSON FOR VACANCY ON SUPREME COURT

WASHINGTON, April 26.—A quiet boom for the appointment of Secretary of War Robert P. Patterson as chief justice of the United States is under way on Capitol Hill today with some Democratic and Republican support.

But reporters accompanying President Truman on his vacation cruise—interrupted yesterday to permit the chief executive to attend funeral services for Harlan P. Stone—said they had been told by White House aides the President thus far had given no consideration to a successor.

Most speculation has centered around the idea that Mr. Truman might elevate a sitting justice to the post Stone held and designate a Republican to the vacancy thus created. Justices Robert H. Jackson, Stanley F. Reed, William O. Douglas and Hugo L. Black all have been mentioned in this connection. Senator Taft (R-Ohio) noted that if Mr. Truman followed this procedure it would be the exception, rather than the rule.

Taft said his father, while president, first broke the precedent by elevating Edgar D. White, a Louisiana Democrat, from associate to chief justice. President Roosevelt followed suit 31 years later by appointing Stone, a Republican.

No other chief justice was a member of the court at the time of his appointment.

Taft told a reporter he thought Patterson would be acceptable to senate Republicans, should Mr. Truman decide to name him. An administration supporter, who asked not to be quoted by name, said it was his understanding that Patterson, a Republican and a former circuit of appeals judge, had been offered a place on the high bench before Justice Harold H. Burton was named from the senate.

Because he lacked an experienced man to take Patterson's place in the cabinet, however, the President was reported to have reconsidered with an explanation of why he was doing so. There was speculation that he might now reopen discussions with Patterson.

Blaine suffered cuts on the head and was taken to an Aurora hospital.

Daniels quoted the engineer as saying his train was traveling 85 miles an hour when he noticed the first of two warning signals. The engineer applied the brakes at once, Daniels said Blaine related, but "it was too late. How I came out alive, I'll never know."

At the station, James Tankney, flagman on the advance flyer, left the rear coach and told passengers, "I'm going to stop that train behind us."

But before he had walked a dozen steps, the Exposition Flyer roared toward the stalled advance flyer, with brakes screeching and sparks flying from its wheels, struck the rear coach of the advance train.

Edward Flynn, executive vice president of the railroad, said the automatic signal systems had been functioning properly. The unscheduled stop by the advance flyer was made when trouble developed in the undercarriage of the train, he said.

## Legalism

The curse of legalism laid on the United Nations by governments refusing to use the security council for anything but expression of nationalism is at its heaviest and deadliest in the Iran issue.

The argument over whether or not Iran's case should be left on the agenda until May 6 represents nothing but a struggle for prestige, with Russia demanding it be dropped, and Great Britain and the United States successfully insisting it be handled as originally scheduled.

Apparently Russia has lost the battle of legalism in this particular instance, but no one claims the Anglo-American legalists have won anything. No one cares about legalism but legalists. It has nothing to do with cooperative security in an atomic age. It cannot save lives. It cannot represent what the people are thinking, but only what a decadent caste of diplomatic witch doctors are preoccupied with because they dare not admit that their technique of picking fights with studied insults and patching them up with hypocritical apologies is as archaic as the cross-bow. They and their old-school political bosses are out of work and hoping their constituents won't find it out.

The people are thinking of the year 2000 A. D. Their so-called statesmen are preoccupied with the kind of hair-splitting that became obsolete Aug. 6, 1945, the day the story of the development of atomic explosions blew up Hiroshima and all existing conceptions of international security.

## Honest Difference of Opinion

Whether Senator Vandenberg knew last Monday when he urged approval of the \$3,750,000,000 credit to Britain that Senator Taft would speak against the proposal on Wednesday is uncertain.

Senator Vandenberg, who was to leave for Europe Tuesday morning, spoke out of turn, acknowledging that he recognized the right of Senator Taft and other members of the Senate banking and currency committee to be heard first.

These two speeches express an honest difference of opinion between the Republican party's two strongest senators. Senator Vandenberg, the party's most respected spokesman on foreign affairs, believes the credit should be advanced on grounds of American self-interest. He sees it as the means of bolstering freedom against the relentless assault of regimentalists. Admitting the possibility he might be wrong, he said last Monday: "If I am wrong, the cost will be relatively small in comparison with the total problem. If they (the loan's opponents) are wrong, the cost would be immense and could be catastrophic. I choose the latter gamble in the expectation that events will vindicate this action."

Senator Taft's position is not, significantly, against helping Great Britain. It is against helping Great Britain in a way that would obligate it to repay the money advanced. He would give Britain an outright grant, instead, as a kind of additional payment on the subsidy plan known as lend-lease during war-time. This grant, or gift, amounting to \$1,250,000,000, would have to be spent in the United States within three years.

The obvious merit in the Taft proposal is its avoidance of the inevitable complications from "loans" that are not, in fact, loans at all but gestures of confidence. While it might hurt British pride to accept a gift, the fact is that British pride has withstood the shock of the unpaid loans still due from World War I, the unpayable advances made under lend-lease in World War II and should have no more trouble with a gift given under its right name than with a loan it couldn't repay anyway.

Neither senator has put enough stress on the probability that whatever is advanced, either as a loan or a gift, will be followed in due time by further loans and/or gifts. In other words, if 1946 finds the United States advancing \$1,250,000,000 or \$3,750,000,000, the chances are more will be forthcoming before 1950. For anyone to believe that the British empire, saddled with debt, socialism and political unrest, can be put back in tip-top condition for a few billion dollars is absurd.

We believe Senator Vandenberg is right when he says it is in our self-interest to do what we can, but we believe Senator Taft is right when he says the trying should be done under right names, always remembering that the American taxpayer's dollar, when invested abroad by a political decision, should be secured by something more tangible than a politician's promise.

## Who Caused Inflation?

It is impossible to be unaware any longer of the frantic efforts of the Truman administration to pin blame for rising prices and deteriorating dollar values on Republicans, National Association of Manufacturers or Amalgamated Organ Pimpers of the Midwest—anybody but the party in power.

Chances are that inflation will be a major scandal long before the laws that make it impossible (according to Democrats) expire. Authority for OPA expires next June, but in the meantime OPA isn't preventing inflation. That is what Democrats must hide.

Therefore, the assignment for the hatchet men is to persuade the public that sinister forces hostile to the Democratic party are to blame for inflation. Thus, there is an attempt to make it appear that the root of the trouble is opposition to OPA. Of course, OPA already has flunked its job of preventing inflation, but a detail like that is not important to the master strategists who put over the political falsehood of the "Hoover depression". They are drooling as they muse on the possibility of blaming inflation on someone else.

## Irrigation

The average resident of Washington, D. C., drank 4.09 gallons of whiskey in 1944, as compared with the national per capita average of 1.26 gallons, according to figures presented by the Allied Liquor Industries, Inc.

Our unofficial but optimistic explanation of the disparity is as follows: The over-saturation in the nation's capital is necessary to balance the extreme dryness of the Congressional Record and thus preserve a humidity on a par with that of the rest of the United States.

## The Stars Say

For Saturday, April 27.

DESPITE a sudden obstruction or breaking-up of old conditions, with a revision of the affairs or plans, there is sign of a definite opening for accomplishing certain promising projects in which the public or those in high places are willing to give substantial support.

The uprooting may be incident to newer and advanced ways of inaugurating fresh and novel methods of achievement. But act on logic and good sense and not with impulse, erratic or emotional urges. Suppress nervous tension and unrest.

## If It Is Your Birthday

Those whose birthday it is may look for a year of success, progress and advancement through novel, or fresh techniques in putting over important projects in which there may be surprising support from public, community or other influential sources.

It is recommended that all erratic, nervous and emotional stresses be suppressed for most constructive and practical returns. Also, attend to rest, diet and balanced behavior.

A child born on this day may have fine creative talents and high ambitions, but attention to its emotional and nervous urges may yield surprising results.

The OPA suspended price control on strawberries. It probably will bring the answer to why the short-cake is short.

There always have been some things that money won't buy—and now there are more things that money can't buy.

The man of the hour is usually the fellow who knew how to take care of his minutes.

## The Stars Say

For Saturday, April 27.

DESPITE a sudden obstruction or breaking-up of old conditions, with a revision of the affairs or plans, there is sign of a definite opening for accomplishing certain promising projects in which the public or those in high places are willing to give substantial support.

The uprooting may be incident to newer and advanced ways of inaugurating fresh and novel methods of achievement. But act on logic and good sense and not with impulse, erratic or emotional urges. Suppress nervous tension and unrest.

## If It Is Your Birthday

Those whose birthday it is may look for a year of success, progress and advancement through novel, or fresh techniques in putting over important projects in which there may be surprising support from public, community or other influential sources.

It is recommended that all erratic, nervous and emotional stresses be suppressed for most constructive and practical returns. Also, attend to rest, diet and balanced behavior.

A child born on this day may have fine creative talents and high ambitions, but attention to its emotional and nervous urges may yield surprising results.

The OPA suspended price control on strawberries. It probably will bring the answer to why the short-cake is short.

There always have been some things that money won't buy—and now there are more things that money can't buy.

The man of the hour is usually the fellow who knew how to take care of his minutes.

Fatigue and Lack of Energy Anemia Symptoms

HERMAN N. BUNDESEN, M.D.

BLOOD is the very staff of life. Though not commonly known as such, it is as essential to the body as the heart or lungs. In fact, it is the blood that carries the life-giving flow of oxygen to the cells of the body. The other as a pump, it carries the waste products of the body's air-circulation.

It is easy to see the necessity of keeping early anything that lowers the quality of the blood, for anything which does, lowers the whole body adversely.

**Lack of Red Coloring**

Lack of red coloring in the blood, can readily be detected by an examination of the skin. But most people think to have such a test made, they have first suffered from it.

The blood is such an important fluid, it is wise to keep it in good condition. The early symptoms of anemia are so that an examination may be made and the condition corrected at once.

The most common and earliest symptoms of which an anemic patient complains are tiredness and lack of energy, some shortness of breath, and heart palpitations, and occasional dizziness, and a fairly any actual pain.

**Mouth Soreness**

In certain types of anemia, red and white spots of soreness of the mouth and tongue are present. Patients frequently think that these symptoms are due to smoking, or the formation of excessive gas in the bowels, sickness to the stomach, and loss of appetite, constipation.

These symptoms develop particularly in the type of anemia in which there is not only a lessening of the coloring in the blood, but also a lack of acid in the stomach.

In most types of anemia, loss of weight does not occur, but it may happen in pernicious anemia, a condition due to the lack of a certain factor or substance found in liver and extracts of stomach tissue. In women, disturbances of the regular periods may occur with anemia.

**Skin Changes**

As a rule, in the patient with anemia certain changes occur in the appearance of the skin, the type depending on the kind of anemia present. Thus, the general appearance of the skin may be a guide in the diagnosis. However, pallor or paleness of the skin does not necessarily mean anemia.

On the other hand, the severe anemia may be told by the presence of a bluish tinge to the skin called cyanosis due to a lack of oxygen in the tissues, or by jaundice, which is a greenish-yellow discoloration of the skin. In pernicious anemia there may be a pale lemon-yellow color of the skin.

It may be easier to tell whether or not anemia is present by examining the lining membrane of the mouth, lips, and eyes, rather than the appearance of the skin.

Most cases of anemia will respond promptly to treatment, if it is given early. Keep in mind the symptoms of anemia so that when they occur, a blood examination can be made at once.

**QUESTIONS AND ANSWERS**

M. J.: I am fifty-five years of age and am still having hot flashes that keep me awake. Is there anything I can do for this?

Answer: In most instances, estrogenic substances will give some relief. These, of course, should be prescribed by a physician in the proper dose. Estrogenic substances are glandular extracts.

Letters to Dr. Bundesen should be addressed in care of 235 E. 45th St., New York City.

HERMAN N. BUNDESEN, M.D.  
BLOOD is the very staff of life. Though not commonly thought of as an organ, it is as essential as heart or lungs. Indeed, both of the latter exist only as servants to the blood, the latter merely as a pumping station to keep its life-giving flow constant; the other as a conveyor to supply it with the necessary oxygen which it carries endlessly through every one of the body's airways.

### Party Marks Mrs. Bunn's 90th Birthday

Mrs. W. E. Bunn of Cleveland, well known for her activities in church and civic affairs, today celebrated her 90th birthday anniversary.

Mrs. Bunn spent the winter in Youngstown at the home of her son, Dr. William Bunn.

The event will be celebrated at a family dinner tonight at the home of her son, Paul Bunn, superintendent of Youngstown schools.

Her other son, George J. Bunn, of Salem, and his wife, will attend the dinner. Mrs. Bunn plans to accompany them home.

Alice Hall Bunn was born in Tiltonville, Jefferson county. Before her marriage to W. E. Bunn, she taught school in Hammondville. Her early married life was spent in Salineville.

The Bunn family came to Salem 23 years ago. Taking an interest in civic affairs, Mrs. Bunn sponsored the organization of the Salem Garden club, April 23, 1931, and was its first president.

A member of the Presbyterian church, she was teacher of the Tremaine class for many years. She is now teacher emerita.

A former member of the Travelers club, Salem's oldest literary unit, she is a past president.

"Always interested in the work of the temperance movement, Mrs. Bunn was affiliated with the Women's Christian Temperance union, and in the early days was one of the Crusaders.

Besides her three sons, Mrs. Bunn has 11 grandchildren and 16 great-grandchildren.

### NEW TOURNNEY SETUP REJECTED BY OHSAA

COLUMBUS, April 26—Ohio High schools rejected today a proposal that the state be divided into three classes, instead of the present two, for basketball competition.

The vote, announced by Harold W. Emswiler, commissioner of the Ohio High School Athletic association, was 412 against the proposal and 364 in favor.

Had the proposal, submitted by a group of Toledo schools, been approved, there would have been three state tournaments next year instead of the present two.

Under an OHSAA rule, such a suggestion now can not be voted on again for three years.

The proposal was that Class "B" consist of schools with male enrollments of up to 150; Class "A" schools of from 150 to 400 boys, and a new Class "AA," schools with more than 400 boys.

## Party Marks Mrs. Bunn's 90th Birthday

Mrs. W. E. Bunn of Cleveland st., well known for her activities in church and civic affairs, today celebrated her 90th birthday anniversary.

Mrs. Bunn spent the winter in Youngstown at the home of her son, Dr. William Bunn.

The event will be celebrated at a family dinner tonight at the home of her son, Paul Bunn, superintendent of Youngstown schools.

Her other son, George J. Bunn, of Salem, and his wife, will attend the dinner. Mrs. Bunn plans to accompany them home.

Alice Hall Bunn was born in Tiltonville, Jefferson county. Before her marriage to W. E. Bunn, she taught school in Hammondsville. Her early married life was spent in Sallenville.

The Bunn came to Salem 23 years ago. Taking an interest in civic affairs, Mrs. Bunn sponsored the organization of the Salem Garden club, April 23, 1921, and was its first president.

A member of the Presbyterian church, she was teacher of the Trimble class for many years. She is now teacher emerita.

A former member of the Travelers club, Salem's oldest literary unit, she is a past president. Always interested in the work of the temperance movement, Mrs. Bunn was affiliated with the Women's Christian Temperance union, and in the early days was one of the Crusaders.

Besides her three sons, Mrs. Bunn has 11 grandchildren and 10 great-grandchildren.

## Drive on Rhine Was Costliest European Battle, Army Report Shows

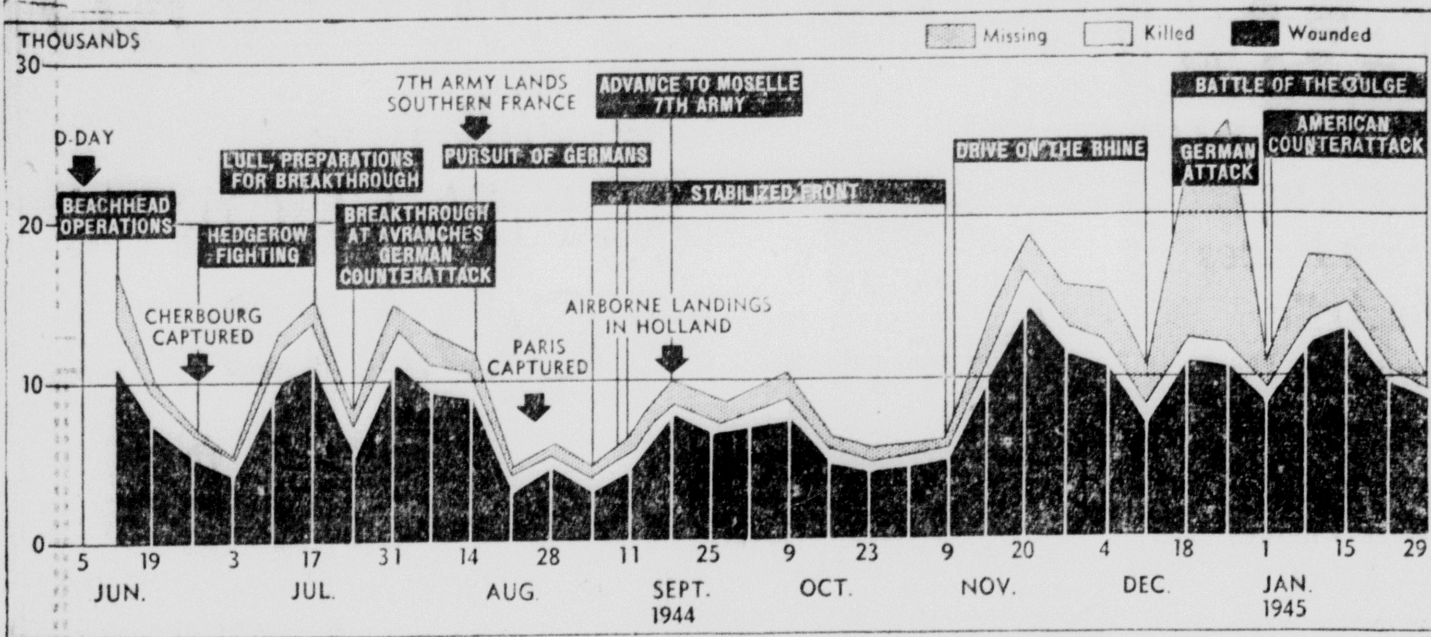

Chart above, from the new report by Gen. Jacob L. Devers, Army Ground Forces commander, to General Eisenhower, shows the battle casualties of Army field forces on the continent of Europe from D-Day, June 6, 1944, to January 29, 1945. It is interesting to note that there were more men killed in action during the drive on the Rhine than died in the D-Day invasion of Fortress Europe, which was expected to be extremely costly in lives. The extreme rise of "missing in action" during the German surprise attack in the Battle of the Bulge probably reflects the number of prisoners taken by the enemy.

## Lone Cavalry Division Took Beating in War

Picto-chart above, made from data in the new report of Gen. Jacob L. Devers, Army Ground Forces Commander, to General Eisenhower, shows casualties suffered by the various ground force branches from Pearl Harbor Day, Dec. 7, 1941, through August 31, 1945. Highest percentage of casualties was suffered by the 1st Cavalry Division, heroes of the dash for Manila.

## Dishes to Realty

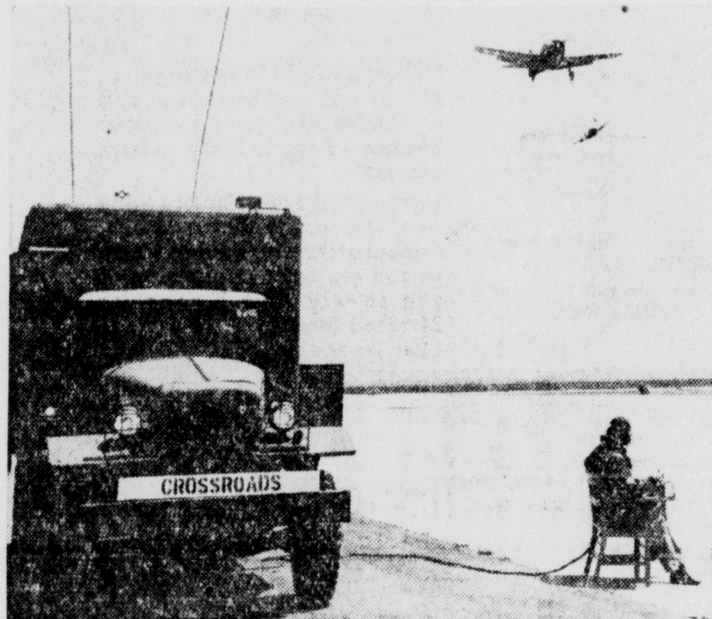

OUT FROM behind her last mountain of dishes comes Mrs. Alice Lauber Wagner in a Miami Beach, Fla., hotel kitchen as she quits her interim career to return to the real estate business which made her a legendary figure in New York realty circles. In 1926, Alice came from Switzerland with \$200 and a one-word English vocabulary of "yes." She built the combination into a business netting \$75,000 annually until the depression and poor health halted her career. (International)

## Pilotless Drone Planes Rehearse For 'Operation Crossroads' Role

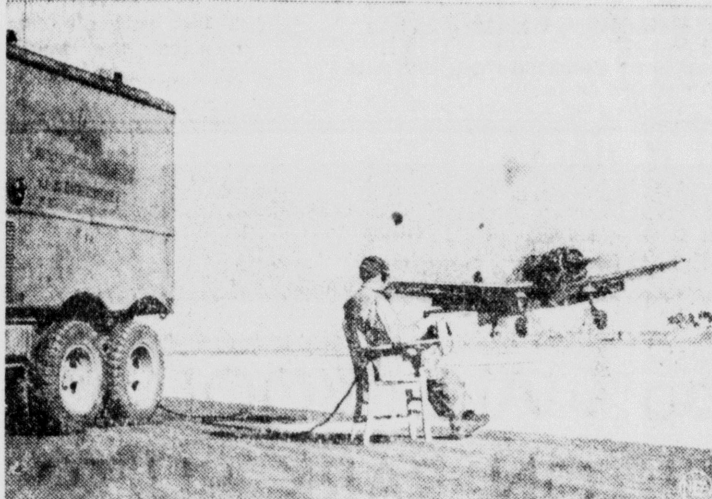

Stubby Navy Helicat fighter planes, with no one aboard, are taking off, zooming in flashing flight and landing in realistic practice for their important role when the atomic bomb is dropped at Bikini Atoll. Four of these "drone" planes, each with two control planes, will be catapulted from the carrier Shangri-La. They will gather air samples and other scientific data unobtainable by other means. Drones will be controlled, first from the carrier's deck then from a "mother plane" in the air and finally by a ground control officer on Roi Island, where they will land. Photos below show drones in rehearsal at the naval base, San Diego, Calif.

Helicat drone in lead is controlled by "queen" or mother Helicat directly behind it. Second control plane stands by in case of failure in first one.

Mother plane (background) turns away after releasing control of drone to ground operator, who will bring it in for landing.

Pilotless drone plane makes a perfect three-point landing after having been brought in by ground operator's remote-control radio.

## BABY HAS SIX OPERATIONS

ALTHOUGH LITTLE Mary Ann Armstrong of Washington, D. C., is only 14 months old, she has undergone more surgery than is experienced by most persons in their entire lifetime, having had six serious operations to date. Born without a normal bile duct, Mary Ann was operated on to correct that condition, a hernia operation and removal of scar tissue followed, then radium treatment for the removal of a birthmark on her cheek. Today she is on the road to recovery and the pet of the nurses at Children's hospital in the capital city—a fact evidenced in the above photo. (International)

## General Eisenhower Slept Here

General of the Army Dwight D. Eisenhower walks through the front gate of the fence that surrounds the white house where he was born 55 years ago. His visit to his birthplace at Denison, Texas, was part of a welcome home celebration for the chief of staff. The home has been set aside as a monument to the general.

## 'Just Pleasingly Plump'

"Fat? Who, me? Why the nerve of some people!" Okay, baby—let's call it "just pleasingly plump!" However, Miss Shirley Ann Haskin, of Millington, Mich., for a 13-month-old, you're really a big girl, you know. Babies your age usually weigh about half of your 37 pounds and they have to be two years old before they grow as tall as you. Yes, you're doing all right for a little snip who weighed only 6½ pounds at birth.

## STYLISH DIRT DODGERS

Good at dodging dirt but willing, if caught, to yield up smudges to a damp cloth are high-styled accessories which should be met with "praises be" by every gal who is tired of being a nurse-maid to pretty white collars, gloves, cuffs, bows and other doo-dads. The two sets of accessories shown laugh at laundry or dry-cleaning problems because they are made of fabrics woven with plastic coated yarn. The white hat, bow, cuffs and handbag, left, are immune to practically all forms of dirt, grease, oil, perspiration or finger prints. They can be kept as clean and crisp as a new cracker for many seasons simply by wiping with a damp cloth. The hat, gilet and gloves, right, of brown and white checked fabric woven of plexon-coated yarn boast the same solid virtues. The hat, Hattie Carnegie-designed, is shower proof and turns its brim down for the rain, up for the sun.

## They'll Hear June Wedding Bells

Twenty-two-year-old screen actress Anne Baxter, right, above, has announced she'll marry handsome leading man John Hodiak, left, between pictures some time in June. It will be the first marriage for both.

## They're the Boys From Vassar

The radio comedians' jokes about attending Vassar are no good any more. For the first time in the Poughkeepsie, N. Y., college's history, 40 men have been accepted as students to alleviate the shortage of educational facilities. Miss Susan Turner is instructor for the class above.

## FLYER BRANDS INITIALS ON GIRL

JUDGE JENNIE LOITMAN BARROW in Boston municipal court held Lt. Thomas Farrell, left, of Somerville, Mass., flying hero of the Pacific war, in \$10,000 bond for grand jury as he failed to take the stand to deny charges of Helen Stavrou, right, 18. The latter, a Westover field stenographer, charges the flyer branded his initials on her body during a night of torture and attack. (International Soundphoto)

## Aids State Program

C. V. YOUNGQUIST

C. V. Youngquist, Chief of Staff of the Ohio Water Resources Board, in a recent annual report stated that the public's interest in water deals largely with its availability in quantity and quality for domestic use, and is often unappreciative and unaware of its value until disruption curtails the supply.

"It is the job of the Ohio Water Resources Board," he said, "to aid agriculture, industry, and individuals by furnishing technical advisory service whenever needed." He added, "The Board is recommending a long range program designed to conserve existing water resources and to aid in fully developing the water resources of Ohio."

The Board is cooperating in the statewide Conservation Education project to emphasize the importance of all natural resources in accordance with the governor's proclamation naming April as Conservation Month as a tribute to restoring and conserving Ohio's natural resources.

Fifteen per cent of the automotive products of the United States are sold outside of the United States.

## Going Back to Ike

IT'S BACK to the army he left only five months ago for ex-Sgt. James Martin, 34, of Chicago. He served as a cook during the war for General Dwight D. Eisenhower. After receiving a wire from the Chief of Staff's office stating that his commander would like to have him back again, Martin said he would re-enlist. (International)

## County Bankers Group Meets, Elects Officers

LISBON, April 26.—L. F. Firestone of Lisbon, E. M. Stephenson of Salem and J. E. Reaney of East Liverpool were elected president, vice president and secretary-treasurer, respectively, of the County Bankers Association here last night.

The meeting included farmers from throughout the county, who heard H. L. Reuter, state conservation agent, County Agent Floyd Lower, both of Lisbon; Claude Hummel of the Federal Reserve Bank, Cleveland, and David Auch, banker from Columbus, speak on various farming financial problems.

Firestone will succeed E. D. Funkhouser of Columbiana as president of the group. Reaney was re-elected.

## Roxas Gaining In Philippine Vote

MANILA, April 26 — Sergio Osmeña's headquarters tonight virtually conceded his defeat for the Philippine presidency with a charge that "the election is being stolen and apparently nothing can be done about it."

A highly placed source at Malacanang place, who declined use of his name, said the chances of President Osmeña defeating Senate Leader Manuel Roxas "are very slender."

"Roxas supporters, terrorized the voters in at least three provinces, Batangas and Nueva Ecija," he said. "It seems clear now that Roxas' charges that there would be intimidation and vote falsification were only to cover up those very practices by his own supporters."

Repeated attempts to contact Roxas for comment have failed. As far as can be maintained he is not at his residence and has not been since election eve, when he went into hiding. His secretary said then that Roxas went into seclusion after hearing rumors of a kidnap plot against him.

The Associated Press' tabulation of votes at 6 p. m. from 4,748 of the commonwealth's 14,238 precincts, gave Roxas 478,543; Osmeña 391,121.

Roxas thus had increased his margin by 14,000 votes in the last 58 precincts reporting.

**Ohioan Is Convicted In Embezzlement of \$25,000**

NORWALK, April 26.—Clifford A. Ellis, 38, former manager of the Dawson Woodwork Co., was convicted by a common pleas court jury last night of embezzling about \$25,000 of the company's funds.

Ellis' attorneys have three days in which to file motion for a new trial but they did not indicate whether such action would be taken. A jury disagreed when Ellis was tried here last month.

Ellis was arrested on a warrant signed by his foster father, James E. Ellis, president of the company.

## OKLAHOMAN HITS G. O. P. TACTICS IN OHIO SPEECH

(By Associated Press)

COLUMBUS, April 26.—Gov. Robert S. Kerr of Oklahoma says the Republican party's leadership is limited on only one program—"a continuing investigation of Pearl Harbor."

"The Oklahoma Democrat made his assertion last night before some 700 Ohio Democratic party members who consumed a \$25 plate dinner climaxed the party's annual Andrew Jackson day celebration."

"The Republicans have 'too many old men who cannot emerge from the shadows of the past and too many young men who can not emerge from the shadows of the old men,' Kerr asserted."

"The Republican leadership is working to destroy something others are building rather than striving to build something better, and are seeking to divide the people for partisan profit when there should be greater unity for the general welfare," he declared.

**Hits Pearl Harbor Probe**

"The Republican leadership does have one program on which it seem to have achieved complete unity. They are resolved, and their records would justify the American people to believe, that they have dedicated themselves henceforth and forever to a continuing investigation of Pearl Harbor."

Kerr, principal speaker at the gathering, paid his respects to "the immortal Franklin D. Roosevelt" and the "magnificent Harry Truman."

Taking up post-war political issues, Kerr said "the Office of Price administration has done a magnificent job" in holding down living costs of the average family.

"Until a better way is found, or until supply is in reasonable balance with consumer demand, it must be maintained," he said.

**Lausche Absent**

"I think the Republicans are against inflation. But I know they are doing their dead-level best to destroy the only power thus far found that has proven its ability to hold the tidal waters of inflation in check."

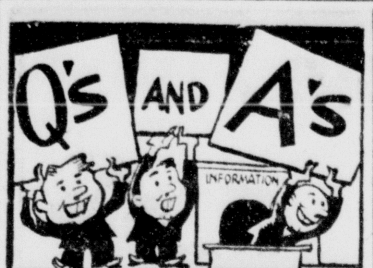

Conspicuously absent from the dinner was Gov. Frank J. Lausche, titular head of the Ohio Democrats. He paid his \$25, but elected to attend an American Newspaper Publishers association meeting in New York instead of the local party.

**Adopt Two-Point Policy On Japan Food Shipments**

WASHINGTON, April 26.—The Far Eastern commission laid down the policy today that the United States should send only enough food to Japan to safeguard the Allied occupation forces.

As expected, the commission also asked the United States government to review immediately its decision to ship more than half a million tons of food to the Japanese during the first six months of this year.

This two-point policy statement—the first one made public in the two months in which the commission has been functioning in Washington—was approved unanimously without a formal vote.

Q—Which are greater, federal, state, or local taxes?  
A—Figures for 1941 show \$7-818,000,000 federal, \$4,600,000,000 local, \$4,449,000,000 state taxes. Federal taxes have risen enormously since.

Q—What is the price of land picked by the United Nations committee in New York and Connecticut?  
A—It averages \$850 an acre.

Q—Is the U. S. still producing helium, the non-inflammable, non-explosive gas for airships?  
A—Production was halted at war's end. 370,787,000 cubic feet—enough to inflate 690 blimps—were produced in the five years before.

**"Ike" Gives Views On Retaining Peace**

NEW YORK, April 26.—Gen. Dwight D. Eisenhower says the United States should travel the paths of progressive universal disarmament, organized international cooperation and mutual international understanding in order to achieve enduring peace.

At the same time, the chief of staff declares America must maintain its military, economic and spiritual strength to protect its own national security and to offer effective support for world peace.

"Uncoordinated disarmament by itself is a treacherous road to our goal," Eisenhower told a dinner of the bureau of advertising of the American Newspaper Publishers association last night. "To believe that uncoordinated disarmament can liberate us from fear of war is a fatuous notion."

The dinner ended the 60th annual convention of the ANPA, largest in the organization's history with 1,034 delegates attending.

William G. Chandler of New York, Scripps-Howard newspaper executive, was re-elected president of the ANPA.

**Two Killed In Crash**

POSTORIA, April 26.—Two persons were killed in a train-auto crash at a Baltimore & Ohio crossing here last night. They were Effie Della Esterly, 65 and Rola A. Kimmel, 67, both of Postoria.

**Injuries Fatal To Youth**

WASHINGTON COURT HOUSE, April 26.—Charles Seyfang, Jr., 14, injured in the wreck of an automobile last night, died early today.

**COLUMBIANA**

Columbiana will go on fast time Sunday morning.

Beginning Sunday, Rev. Herbert A. Smith of First Presbyterian church will conduct an instruction class for young people.

Harry Grimes has foundations prepared for four new houses on his land on Pittsburgh st. at the intersection of E. Railroad st. Each house will comprise two bed rooms, living room, kitchen, utility room and bath. It is estimated that there is a shortage of 300 houses in Columbiana.

Preparations are being made to move the house on S. Main st. occupied by Margaret Gaines to the second lot south, formerly owned by S. S. Weaver, to make room for an addition to the front of Russell Calvin's garage and storage building.

**Scalded By Steam**

Mrs. P. R. Corey of Salem road, northwest of town, was badly scalded by steam Monday evening when members of the Rebekah lodge were preparing the meal for the Kiwanis club meeting. She was in the act of removing the lid from a cooker when the accident happened. She was burned about the arms and neck.

Clipper aerie of the Fraternal Order of Eagles, had a large attendance at its meeting Monday evening to hear an address by State President Harold Snell of Youngstown. The lodge has engaged Pavilion 4 at Firestone park for a meeting Sunday afternoon, May 5.

The April meeting of the L. L. class of the Presbyterian church will be held in the church at 8 to 9 o'clock. Members will respond to roll call with an Easter Bible verse.

**Quadruplet Goats**

Quadruplet goats were born recently on the Leo Zarnoski farm, a short distance southwest of Columbiana. The mother goat is a three-year-old Saanen.

The Columbiana Mothers club met at the home of Mrs. R. M. Gaver with 45 present. Mrs. C. J. Clancy of Youngstown gave a review of the book, "Outside Eden," a story of family life.

Mrs. Charles Fisher entertained with two piano solos.

The next meeting will be Monday evening, May 27, at the home of Mrs. Welda J. Bartels.

Mr. and Mrs. Herbert M. Williams of Columbus and Mr. and Mrs. Evan Lodge and her parents, Dr. and Mrs. Francis Lait, all of Cleveland, were recent guests at the home of Mrs. Williams and Mr. Lodge's parents, Mr. and Mrs. F. D. Lodge, E. Park ave.

**Given 15-Cent Pay Boost**

COLUMBUS, April 26.—Some 1,450 employees of Curtis Wright corporation's Columbus plant have been granted 15-cent hourly wage increases, a company-union statement announced yesterday. The boosts were contained in two contracts covering production workers and guards of the aviation plant's protection force.

**WINONA**

Pvt. Robert Dusenberry and his wife, Jean, and daughter, Kathie, of Damascus were weekend guests of Mr. and Mrs. Donald Dusenberry.

The Friendly Supper group will meet Saturday evening with Mr. and Mrs. Morlan Hole. There will be a covered supper followed by songs. Jesse Starbuck, Salem, Joseph Edgerton, Columbiana, Miss Elma Pemberton, Damascus, and Mrs. E. C. Holloway comprise the committee in charge.

Mrs. Sina Megral was a Sunday guest of Mr. and Mrs. Ebert Allen of Salem.

Mrs. Olive Hall and Mr. and Mrs. O. F. Sidwell were Sunday guests of Mr. and Mrs. Samuel Hall, Adena.

The choir of the Methodist church gave an Easter concert at the church Sunday evening. Mrs. Donald Dusenberry was director and accompanist. The soloists were Mrs. Clyde Bennett, Miss Jane Stamp, Ray Brandt and Jack Dusenberry.

Mr. and Mrs. Rev. Ober of Barton were Monday callers in the Mr. and Mrs. S. H. Bennett home.

Mrs. Emily Satterthwaite entertained at a family dinner Sunday. Out of town guests were Mr. and Mrs. Alfred Satterthwaite and Carol of Akley, Pa.

Weekend guests of Mr. and Mrs. Morlan Hole were Mr. and Mrs. Loran Stanley and Verna of Barnesville.

Mr. and Mrs. Roscoe Stanley entertained at dinner Sunday. Guests were their son, Wilmer Stanley, Philadelphia, Pa., Warren Holloway of Columbiana and Harold Sidwell.

Mr. and Mrs. Morris Hoge of Whittier, Ia., visited Mrs. Hoge's parents, Mr. and Mrs. W. B. Stratton, and attended the funeral of her brother, William Stratton, Saturday.

**Get 300 Housing Units**

## Roxas Gaining In Philippine Vote

MANILA, April 26 — Sergio Osmeña's headquarters tonight virtually conceded his defeat for the Philippine presidency with a charge that "the election is being stolen and apparently nothing can be done about it."

A highly placed source at Malacanang palace, who declined use of his name, said the chances of President Osmeña defeating Senate Leader Manuel Roxas "are very slender."

"Roxas supporters, terrorized the voters in at least three provinces, Tayabas, Batangas and Nueva Ecija," he said. "It seems clear now that Roxas' charges that there would be intimidation and vote falsification were only to cover up these very practices by his own supporters."

Repeated attempts to contact Roxas for comment have failed. As far as can be maintained he is not at his residence and has not been since election eve, when he went into hiding. His secretary said then that Roxas went into seclusion after hearing rumors of a kidnap plot against him.

The Associated Press' tabulation of votes at 6 p. m. from 4,748 of the commonwealth's 14,238 precincts, gave Roxas 478,543; Osmeña 391,121. Roxas thus had increased his margin by 14,000 votes in the last 58 precincts reporting.

**Ohioan Is Convicted In Embezzlement of \$25,000**

NORWALK, April 26.—Clifford A. Ellis, 38, former manager of the Dawson Woodwork Co., was convicted by a common pleas court jury last night of embezzling about \$25,000 of the company's funds.

Ellis' attorneys have three days in which to file motion for a new trial but they did not indicate whether such action would be taken. A jury disagreed when Ellis was tried here last month.

Ellis was arrested on a warrant signed by his foster father, James E. Ellis, president of the company.

## OKLAHOMAN HITS G. O. P. TACTICS IN OHIO SPEECH

(By Associated Press)

COLUMBUS, April 26.—Gov. Robert S. Kerr of Oklahoma says the Republican party's leadership is united on only one program—a continuing investigation of Pearl Harbor.

The Oklahoma Democrat made his assertion last night before some 700 Ohio Democratic party members who consumed a \$25 plate dinner climaxed the party's annual Andrew Jackson day celebration.

The Republicans have "too many old men who cannot emerge from the shadows of the past and too many young men who can not emerge from the shadows of the old men," Kerr asserted.

"The Republican leadership is working to destroy something others are building rather than striving to build something better, and are seeking to divide the people for partisan profit when there should be greater unity for the general welfare," he declared.

**Hits Pearl Harbor Probe**

"The Republican leadership does have one program on which it seems to have achieved complete unity. They are resolved, and their records would justify the American people to believe, that they have dedicated themselves henceforth and forever to a continuing investigation of Pearl Harbor."

Kerr, principal speaker at the gathering, paid his respects to "the immortal Franklin D. Roosevelt" and the "magnificent Harry Truman."

Taking up post-war political issues, Kerr said "the Office of Price Administration has done a magnificent job" in holding down living costs of the average family.

**Lausche Absent**

"I think the Republicans are against inflation. But I know they are doing their dead-level best to destroy the only power thus far found that has proven its ability to hold the tidal waters of inflation in check."

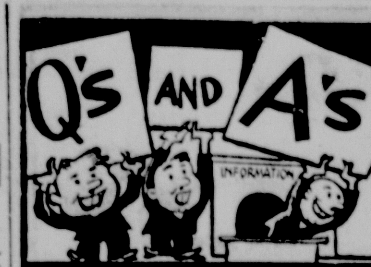

Conspicuously absent from the dinner was Gov. Frank J. Lausche, titular head of the Ohio Democrats. He paid his \$25, but elected to attend an American Newspaper Publishers association meeting in New York instead of the local party.

Steve Vuckovic, 60, of Warren, a truck driver, was fined \$50 and costs by Mayor Hugh Dickson of Canfield after his arrest last night by state highway patrolmen on a charge of driving while intoxicated.

Tony Martin Kussin, 32, of Elchid, was fined \$5 and costs by Justice of the Peace C. M. Gardner of Edinburg for passing a stopped school bus on the highway.

**Will Repeat Cantata**  
The Presbyterian church Hayland choir will give its cantata, "Easteride," (Protheroe) at 8 p. m. Sunday at the Concord church, Ellsworth road, sponsored by the young people's class of the church.

The cantata is a story of the Easter message of the risen Christ. W. W. Alspaugh directs the choir, assisted by Daniel Holloway, and Miss Anna Cook, accompanist.

**Phillips Church Program**  
Full-color astronomical and natural science scenes feature "The God of Creation," an evangelistic film, which will be shown at 8 p. m. Monday in the Phillips Christian church, three miles south of Salem just off the Lisbon road.

The film was produced in the west coast laboratory of the Moody Bible Institute by Irwin A. Moon.

**PTA Plans Election**  
The Columbia Street school Parent-Teacher association will meet at 7:30 p. m. Monday, when election of officers will be featured.

The program will be in charge of the teachers, with students participating. Refreshments will be served by parents of fifth grade pupils. Anyone interested is invited to attend.

**Postoffice On Fast Time**  
Postmaster A. E. Beardmore announced today that the postoffice will operate on Daylight Saving time, starting Sunday, to conform with the time schedule which goes into effect in Salem Sunday.

The lobby will open at 5:30 a. m. and will close at 8 p. m. Previously the office opened at 5 a. m.

Robert Barton, went to Columbus today to attend a state youth conference.

**Zimmerman Improved**  
The condition of Councilman C. P. Zimmerman of W. Wilson st., who suffered a stroke earlier this week, is said to be improved today.

## RAIL STRIKE

(Continued from Page 1)

ton, we'll go, but the strike order won't be called off until a satisfactory settlement is reached.

Last night the three other operating brotherhoods announced they would join a move by the 15 non-operating unions to reopen their own case, for wage increases higher than the 16 cents an hour boost awarded them by arbitration boards on April 3.

**Wage Demands Made**  
Since last July 24 all of the rail unions have been seeking wage increases and changes in working rules. The trainmen and engineers insisting on keeping the two issues together, declined arbitration, called their strike and saw their case go before a fact-finding board.

The other 18 organizations accepted arbitration of the wage demands by two arbitration boards, not pressing the rules changes.

All the wage demands were closely parallel—30 cents an hour for the non-operating men, \$2.50 a day for the three operating groups which accepted arbitration, and an average of 25 per cent for the trainmen and engineers, working out to about the same rate.

Awards in each case amounted to 16 cents an hour. Already the 15 non-operating unions have filed notice they will be re-opening their case for an additional 14 cents. The engineers and firemen, the conductors and the switchmen said they would file their demand "for further increases" on May 3.

brandies have been sold without restriction. Balmert said there was no way of estimating how much of the unrationed varieties was finding its way across the Ohio river into West Virginia and Kentucky but added that retail permit holders had filed numerous complaints of inability to buy them.

"The situation seems especially bad in eastern Ohio, in cities such as Steubenville, Bellaire, and the like," Balmert said. "A lot also gets through Ironton into Kentucky." In an effort to see that bottle purchases of unrationed liquors "at least pass through the hands of Ohio purchasers," Balmert said. Store managers must examine the liquor ration card issued for buying liquors and scotches. The card will not be punched and the purchaser may return as many times as he pleases, Balmert added.

The new restrictions, however, do not apply to Cuban gin, domestic and imported rums and brandies, cordials, and specialties.

### One Pottery Strike Ends

EAST PALESTINE, April 26.—A one-day strike of 72 union employees of the China Novelty Co. ended yesterday with their return to work after they were granted an hourly wage increase of 18 1/2 cents by the Federal Wage Stabilization board. At the Kingwood China Co. plant, however, 104 workers remained on strike.

## 15,000 ARE IDLE AT GOODRICH PLANT

AKRON, April 26.—All production at the B. F. Goodrich Co. was halted at noon today and 15,000 employees were idled by a walkout of CIO United Rubber Workers of America at the company's processing department.

The company said it was forced to shut down as prepared stock used in tire, tube and other departments was exhausted when first shift employees in the room, calendar and reclaim departments failed to return to work.

Union officials said they were hopeful the stoppage could be ended later today.

## 970-Pound Hog Brings Record Price of \$136

LOUISVILLE, Ky., April 26—The meat shortage received a jolting blow here today.

Tanbark King, a 970-pound hog was sold at Bourbon stock yards by Louis Payne, Shelbyville, Ky., for \$136.28.

Marketing experts said they believed it was the biggest hog ever to pass through the yards and also that the price was the highest ever paid for a porker here.

L. T. Skeffington, marketing specialist, estimated that three-fourths of the hog will go into meat at the purchasing packing plant.

# NEW 'SUPER-SUPER' B-50 GETS TRIAL WORK-OUT

CONSIDERED MORE POWERFUL and more destructive than the B-29, which figured so prominently in the war on Japan, is the new Army Air Force B-50, shown here as it took off for a test flight from Wright Field, Dayton, O. The new super-bomber is powered by four engines producing 12,000 horsepower, supplemented by jet exhaust stacks for extra speed. The new design expedites the changing of engines. (International)

## How Home Building Costs Jumped in U. S. A.

IF YOU'RE THINKING OF BUYING a low or medium-priced house, this chart will give you an idea of how prices rose from the Spring of 1940 to February, 1946. The figures beneath the houses show the percentage increases in different areas of the nation. Lowest rise was in the Middle Atlantic area, the highest, in the Pacific area. The figures are from the April report of the National Housing Agency.

## Ex-Amateur To Photograph Atom's Underwater Effects

By NEA Service

SAN FRANCISCO—What happens above the waterline at Bikini atoll when they put the atom-bomb through its paces will be fairly easy to see and photograph.

But how to look at the atomic aftermath beneath the coral-floored waters, and how to record what warships look like after they have become sunken hulks in the lagoon, is another matter.

And it means a recall from a short-lived civilian status for Lieut. Comdr. John D. Simpson, Jr., who will supervise underwater photography in the forthcoming "Operation Crossroads".

Simpson had a good taste of touch-and-go operations in his naval reserve career during the war.

He was a mine-disposal officer. As such he found great need for underwater photography to lessen the hazards of his work, and, although Simpson was just an average amateur photographer before entering the service, he became the Navy's most experienced and best-qualified expert on this type of photo work.

The 28-year-old Lynchburg, Va., officer stopped here on his way to Pearl Harbor, where he will train his team of 10 or 15 men in the technique of taking photographs in full diving rigs while 40 to 180 feet beneath the surface.

Some 7,000 pounds of photo equipment will go out with Simpson, including 10 cameras valued at more than \$10,000 apiece.

Was Civil Engineer

A former civil engineer, Simpson spent three years disposing of mines in the New Hebrides so the geographical and climatic conditions he will encounter at Bikini will be nothing new to him.

His cameras will not be placed in the water until after the atom bomb has been detonated because, he explained, the crushing effect of the concussion would destroy the equipment, even though some of it is

Lt. Comdr. Simpson

designed to withstand pressures at 600 feet.

One of the new underwater cameras that will be used is a converted aerial camera which will weigh only 15 pounds under water. The photo flash equipment is similar to that used in press photography except that the flash bulbs are larger and are mounted ahead of the camera instead of on it.

In addition to the cameras that Simpson and his team will carry with them when they don diving gear, he has several robot cameras that will be towed slowly through the water, automatically taking pictures every few feet.

The "home lovin' boy," as the young officer styles himself, had a bare four months of "duty" as a civilian before the Navy requisitioned his services for the great test of atomic power—an "amateur" photographer who found himself indispensable in helping determine what happens to naval vessels when sunk by our most powerful weapon.

## Manufacturing Concerns In Ohio Hiring More Men

CLEVELAND, April 26.—Ohio manufacturing employment jumped about 30,000 from last Dec. 15 to Jan. 15, an increase of more than 2½ per cent, it was reported today by Adolph O. Berger, regional director of the bureau of labor statistics, U. S. Department of Labor.

Berger estimated Ohio employment, in manufacturing concerns for January at approximately 1,049,000 adding this did not reflect effects of the steel strike but did take into account the General Motors' work stoppage in that period. The January figure was about 337,000 less than the wartime peak of 1,386,000 in August, 1943.

## Canton Widower Indicted In Slaying of Waitress

CANTON, April 26.—Charles Pustay, 56-year-old widower, was indicted by the Stark county grand jury today on a first degree murder charge in the slaying of Miss Ruth Woodie, 27, a waitress, last Dec. 8.

The grand jury, in recess, was recalled by County Prosecutor D. D. McLaughlin who said this was justified by the importance of the case.

Pustay is owner of the rooming house in which Miss Woodie lived just prior to her killing. Her body, the face and head battered severely with a piece of paving brick, was found in the basement of an abandoned house not distant from Pustay's home.

The accused man, whose wife died last year, was arrested last week by Canton detectives. Charged with the slaying in an affidavit signed by the police officers, Pustay pleaded innocent in municipal court.

## RIISING COSTS REQUIRE INCREASES IN BLUE CROSS GROUP HOSPITALIZATION RATES!

But The Same Liberal Hospital Benefits Will Prevail!

Hospital costs have increased materially in recent months. Drugs, dressings, equipment, and supplies of all kinds have gone up in line with current wage and price trends. Hospital bills reflect these trends.

As a non-profit community program the Associated Hospital Service, like all other group hospitalization plans affiliated with the Blue Cross Commission of the American Medical Association, uses all of its income other than a small operating expense (which amounted to only 8.1 per cent in 1945) to pay current hospital bills and maintain an adequate reserve for whatever contingencies may arise.

It is not possible to maintain the present reserve fund and pay larger hospital bills without increasing premium rates.

Therefore, Effective as of June 1, Premium Rates Will Be Increased As Per the Following Schedule:

## MONTHLY RATES:

WARD SERVICE		SEMI-PRIVATE SERVICE	
	As of Now June 1		As of Now June 1
Individual	\$ .80	Individual	\$1.00
Man & wife, or man, wife & children (under 19 not married or employed)	1.60	Man & wife, or man, wife & children (under 19 not married or employed)	2.00
Individual & children (under 19 not married or employed)	1.60	Individual & children (under 19 not married or employed)	2.00

Subscribers holding original contracts issued prior to April 1, 1945 who have not converted to the revised contract issued on and after April 1, 1945 will automatically advance to these increased rates and will receive new contracts following payment of June premiums.

# PLEAD GUILTY TO MURDER OF THEIR NEW-BORN SON

WILLIAM E. ALBRIGHT, 34, and his wife, Olive, 30, VanWert, O., pleaded guilty to a charge of homicide in the killing of their new-born son, fourth of their children, because they "didn't want any more babies." The couple, shown at right, was bound over to the VanWert county grand jury under \$1,000 bond each. The baby, still wrapped in the plaid blanket used in the burial, is shown above in the crude, shallow backyard grave from which it was unearthed by officers after they had received a call from the Albrights' neighbors that she was supposed to give birth to a child but nothing had been seen of it. Two of the couple's three living children are shown in the background. (International)

## Plan Special Event For Jet-Type Planes

(By Associated Press)  
CLEVELAND — Jet planes and those powered by conventional reciprocating gasoline engines will be classed separately in the 1946 National air races, it was indicated today by the preliminary plans for the event, being revived for the first time since the war.

Because of the jets' speed advantage, separate prizes would be given when both types compete in a single race, and several separate events are being considered, sponsors of the program decided at a meeting yesterday.

Under this policy the Thompson trophy race, a 300-mile event over a 10-mile circular course, would

have one division for jet planes and another for the older type planes. Whether jet planes would be included in the Bendix transcontinental race from Los Angeles to New York via Cleveland was not decided.

By formal action the sponsoring group set the race period for Friday, Aug. 30, through Labor day, Monday, Sept. 1, said General Manager Ben T. Franklin.

Definite scheduling of the competitive events will not be attempted until recommendations are received from the contest board of the National Aeronautics association.

The first trans-Atlantic glider tow was made from Montreal, Canada, to England in June, 1943.

PLEAD GUILTY TO MURDER OF THEIR NEW-BORN SON

WILLIAM E. ALBRIGHT, 34, and his wife, Olive, 30, VanWert, O., pleaded guilty to a charge of homicide in the killing of their new-born son, fourth of their children, because they "didn't want any more babies." The couple, shown at right, was bound over to the VanWert county grand jury under \$1,000 bond each. The baby, still wrapped in the plaid blanket used in the burial, is shown above in the crude, shallow backyard grave from which it was unearthed by officers after they had received a call from the Albrights' neighbors that she was supposed to give birth to a child but nothing had been seen of it. Two of the couple's three living children are shown in the background. (International)

Plan Special Event  
For Jet-Type Planes

(By Associated Press)  
CLEVELAND — Jet planes and those powered by conventional reciprocating gasoline engines will be classed separately in the 1946 National air races, it was indicated today by the preliminary plans for the event, being revived for the first time since the war.

Because of the jets' speed advantage, separate prizes would be given when both types compete in a single race, and several separate events are being considered, sponsors of the program decided at a meeting yesterday.

Under this policy the Thompson trophy race, a 300-mile event over a 10-mile circular course, would

have one division for jet planes and another for the older type planes. Whether jet planes would be included in the Bendix transcontinental race from Los Angeles to New York via Cleveland was not decided.

By formal action the sponsoring group set the race period for Friday, Aug. 30, through Labor day, Monday, Sept. 1, said General Manager Ben T. Franklin.

Definite scheduling of the competitive events will not be attempted until recommendations are received from the contest board of the National Aeronautics association.

The first trans-Atlantic glider tow was made from Montreal, Canada, to England in June, 1943.

# Additional Softball Diamonds Needed For City's Leagues

With the largest field of competing teams in local softball history already entered in Class A and a prospective field of at least 10 teams in sight for Class B, Joe M. Kelley, city recreational director, has a serious problem of arranging to do before Salem's 1946 season can get into full swing.

The problem lies in where all these squads are going to play ball and just how to arrange schedules so that all will be given an ample opportunity to participate in Salem's favorite summer pastime.

Kelley has available two diamonds at Centennial park and from all indications the A league alone can utilize the space there four nights in the week without playing as full a schedule as teams have in past years.

This leaves the B league completely without a place to play its regular games.

Suggestions have been made to shift the B league to a diamond elsewhere in Salem, but no definite place has been located that would amply fill the bill.

The A league presents a problem as to schedules in itself, but that will be ironed out at a meeting of the team managers in the near future, Kelley says.

It is considered practically impossible to operate the 17-team league in Class A as one league, consequently some other means of grouping will have to be arranged before the season opens May 6.

It has been suggested to Kelley that the 17 teams be divided into two leagues chosen by a method to be decided upon by the managers, with regular play throughout the year in a fashion similar to that used in the single A league in past seasons.

## Greenberg, Newhouser Bump Tigers To 1st

### Victory Pair Collaborate Again to Win Over Browns, 6-5, and Move to Top Place

By JOE REICHLER.  
Associated Press Sports Writer

Hurricane Hal Newhouser and Hammering Hank Greenberg, a pair of old hands at coming through in the clutch for the World Champion Detroit Tigers, are still up at the top of the American league.

The two Tiger stalwarts, who combined their special talents—Greenberg with a grand slam homer and Newhouser with a splendid relief job—to defeat the St. Louis Browns in the final game of the 1945 season for the American league flag, collaborated once more yesterday to vanquish the Browns again, 6-5.

The victory enabled the Tigers to take over undisputed possession of first place from the New York Yankees who dropped into a second place tie with Boston by losing to the Red Sox 12-5.

Newhouser, despite one bad inning in which he yielded all the enemy runs, southpawed his way to his third straight triumph of the young season. He gave up seven hits in pitching his third complete game and fanned seven to increase his strikeout output to 22 in 27 frames.

Greenberg enjoyed a perfect day at the dish with two doubles, a single and a free ticket to first. The reconverted first baseman batted in a run and scored two more, including the important tying marker in the eighth.

A single by Birdie Tebbetts followed a moment later to send in Roy Cullenbine with the winning run.

Greenberg's trio of base knocks raised his eight-game batting average to a gaudy .400 with seven of his nine hits good for extra bases.

Led by Johnny Pesky and Eddie Pellagrini, the Red Sox reversed yesterday's 12-5 beating by pounding four New York hurriers for 13 hits, including a homer, triple and double by Pellagrini and two doubles and a brace of singles by Pesky.

Righthander Joe Dobson held the Yanks to nine hits for his second mound triumph.

Brooklyn's dazzling Dodgers moved into undisputed possession of first place in the National league without even having to lift a little finger as the St. Louis Cardinals, who shared the top berth with the Brooks, slid down to second spot by bowing to the Pittsburgh Pirates, 5 to 3.

A long home run by Pittsburgh's Ralph Kiner that traveled fully 450 feet literally knocked the Cards out of the lead. Kiner's blow came with one on in the third and tagged Harry (The Cat) Brecheen with his second defeat of the season.

Ken Heintzelman, who handed the Redbirds their other loss on opening day in St. Louis, also was returned the winner, although he was forced to leave in the seventh inning due to a blistered finger.

The Cincinnati Reds squeaked their 1945 nemesis, the Chicago Cubs, for the first time in four meetings this season with a 7-5 victory. Three Cub misuses gave the Reds as many runs in the seventh inning and chased starter Hank Borowy for the second straight time this year.

It was only the Reds' second win over the Bruins in 26 meetings over a two-year span. Cub Rookie Out-

### BOBBY FELLER ON MOUND TODAY TO CLOSE BAD STREAK

Tribe Depends On Ace to Stop Losses At Three Against Chicago

CLEVELAND, April 26.—The Cleveland Indians called on Bobby Feller, their pitching mainstay, today in an effort to silence the Chicago White Sox and snap a three-game losing streak for the Tribe.

Feller, who has allowed only two earned runs in 19 innings this season, beat the Sox, 1 to 0, in a season opener at Chicago, but lost a 10-inning, 3 to 2 verdict to the Detroit Tigers last Sunday.

Joe Haynes, right hander, was given the mound assignment for Chicago. He has fully recovered from a broken ankle received last season.

Chicago pounded four Tribe hurriers yesterday for 17 hits in winning a 11 to 2 decision behind nine-hit pitching by Ed Lopat. Lopat, who made three singles in four tries to the plate, shut the Indians out until the eighth when a triple by Les Fleming drove in Pat Seery.

Alie Reynolds started for Cleveland, but left in the third when a Chicago uprising produced five runs. Pete Center, Vic Johnson and Johnny Podgajny followed him to the mound.

Chicago sent another man home in the fifth and repeated in the seventh and eighth. Four hits in the ninth, including a triple by Thurman Tucker, added three more tallies.

Cleveland scored its second and final run in the final frame when Felix Mackiewicz singled to score Ray Mack.

### Babe May Go To Mexico!

Ruth, Long With a Desire To Try Hand At Managing, May Accept An Offer To Handle Mexican League Club

NEW YORK, April 26.—The one and only Babe Ruth, baseball's retired Sultan of Swat, may get a chance to manage a club in the Mexican Baseball league and thus fulfill one of his most cherished ambitions.

The great Bambino, an idol to thousands of both grownups and youngsters, hinted at this development early today when asked to comment on reports that Jorge Pasquel, president of the Mexican circuit, had contacted him.

"I haven't heard a thing as yet," declared the slugger whose 60 homers in 1927 still stands as a major league record. "I might go down there for a visit and look over the situation."

"But I wouldn't be interested as a player," he added significantly.

The Babe, who once was paid a salary of \$80,000 when with the New York Yankees 20 years ago, always has wanted to try his hand at managing. Before he left the Yanks in 1934 to join the Boston Braves he was offered the management of Newark in the International league, but turned it down. He retired after one season with the Braves.

### Churchill Downs Set For Kentucky Derby

(By Associated Press)  
LOUISVILLE, Ky., April 26.—Historic Churchill Downs is "all dolled up" with a fresh white-painted face, new finery and flowers, ready to play hostess to a Kentucky Derby crowd expected to pass the 100,000 mark, and which, by conservative estimates, is expected to spend about \$8,000,000 during their stay here.

For the first time since the war started, there are imported Holland tulips, between 40,000 and 50,000 of them, equally as many roses, geraniums, petunias—all presenting a dazzling mass of color.

As for the hungry and thirsty visitors, Harry M. Stevens, in charge of the concessions, says he expects to have about 1,500 persons employed on Derby day, May 4. While there will be no hamburgers, Stevens says hot-dog lovers will not be disappointed, there'll be 300,000 of them.

When asked about the liquor and beer supply, Stevens replied hesitantly (and not in an enthusiastic tone) or with a Bourbon accent: "Well, we hope to have enough for all who want it."

For the first time, the Downs will have a tote board, equipped with automatic electric machines that keep the turf fans informed of the total amount of money bet on each horse in each race, the odds and the results.

In front of the tote board a new formal garden has been laid out about 1,000 persons have been completed on the second floor of the clubhouse.

The paddock, completely rebuilt, has been moved to one side of the promenade outside the clubhouse.

The Downs is ready for the Derby crowd—and officials hope it doesn't rain.

### SPORT CHATTER

By HUGH FULLERTON, JR.  
BEAR MOUNTAIN, N. Y., April 26.—You'd hardly expect to find a heavyweight fighter's training camp that is liable to be overrun with kids or holiday seekers from Manhattan at any given moment.

But Bruce Woodcock, British heavyweight champion, and his manager, Tom Hurst, can scatter original ideas about training around as freely as they scatter their "haithches" and maybe this is one of them.

Woodcock does his heavy training about 5 p. m., instead of several hours earlier as most boxers do. He got the habit during the war when he was working in a factory and couldn't train earlier and now Hurst doesn't see any reason for altering that routine.

"And I'll tell you what," Tom adds, "If we stay around here during the summer I'll have him train at night. There's no use using up his energy during the hottest part of the day."

**BAD OMEN**  
The Briton's one complaint about Bear Mountain as a training site is that in the historic Hudson valley he can't find a place to do his roadwork without running across signs saying: "This is where the British were defeated."

"Hi say," asks Bruce, "Didn't we ever give them a go?"

**GETTING AHEAD**  
The Yankees' Larry MacPhail claims that if he hadn't been a duck hunter, Ed Head might never have pitched that no-hit game for the Dodgers.

Seems Larry went duck hunting in Louisiana when he was Dodger's boss a few years ago and became acquainted with the president of the Abbeville Evangelical League club.

Later the Abbeville man called to offer him first crack at a kid pitcher who had compiled an amazing record so Larry bought Head for \$3500 and a couple of castoff players.

"The fellow nearly oversold himself," says Larry, "when he told me Head could pitch left-handed as well as right-handed."

**DOT'S ALL BROTHERS**  
Greenville, S. C., friends of Shoeless Joe Jackson contemplate an appeal to Commissioner Happy Chandler to reinstate Joe in the good graces of organized baseball. Jackson, nearly 58 years old, maintains he was innocent of any wrongdoing in the 1919 Black Sox affair.

Davey O'Brien may leave the FBI flat neck fall to return to pro football.

# Additional Softball Diamonds Needed For City's Leagues

With the largest field of competing teams in local softball history already entered in Class A and a prospective field of at least 10 teams in sight for Class B, Joe M. Kelley, city recreational director, has a serious problem of arranging to do before Salem's 1946 season can get into full swing.

In Class A alone, Kelley has 17 softball teams planning to play this summer. The B loop is expected to draw at least 10 entries.

The problem lies in where all these squads are going to play ball and just how to arrange schedules so that all will be given an ample opportunity to participate in Salem's favorite summer pastime.

Kelley has available two diamonds at Centennial park and from all indications the A league alone can utilize the space there four nights in the week without playing as full a schedule as teams have in past years.

This leaves the B league com-

pletely without a place to play its regular games.

Suggestions have been made to shift the B league to a diamond elsewhere in Salem, but no definite place has been located that would amply fill the bill.

The A league presents a problem as to schedules in itself, but that will be ironed out at a meeting of the team managers in the near future, Kelley says.

It is considered practically impossible to operate the 17-team en-

ty in Class A as one league, consequently some other means of grouping will have to be arranged before the season opens May 6.

It has been suggested to Kelley that the 17 teams be divided into two leagues chosen by a method to be decided upon by the managers, with regular play throughout the year in a fashion similar to that used in the single A league in past seasons.

Then, after champions have been chosen in each of the two A leagues,

the playoff would be conducted for the city title at the close of the season.

Some managers have expressed a desire to use this method of play, eliminating the "round" division throughout the season, as in past years.

These managers desire the full season of play before a league title is decided because they believe the round system makes it impossible for a squad to win a leg on the championship if it should lose

one or two games in a single round. These team heads would have the league title decided on a percentage basis over the entire year, which would consist of records compiled in approximately 24 games.

The entry of 17 teams has also caused some discussion as to the method by which assignment to separate leagues can be accomplished.

Grouping the squads into two leagues in regard to team power is

one method, drawing from a hat for league positions is another and a rotating system is a third.

The rotating method would entail switching the teams in the two leagues at the close of a round, thereby making it possible for all 17 teams to participate against each other throughout the season.

Kelley plans to get the managers of the teams together early next week and establish the system to be used after the various opinions

are expressed and discussed by the managers.

As in the adoption of league rules, the majority's will determines what action shall be taken, Kelley said.

The problem of diamonds, however, is one that faces the park commission and city officials and one that will require additional facilities before all the players desiring to participate in Salem's recreational program are able to play this season.

## Greenberg, Newhouser Bump Tigers To 1st

### Victory Pair Collaborate Again to Win Over Browns, 6-5, and Move to Top Place

By JOE REICHLER,  
Associated Press Sports Writer

Hurricane Hal Newhouser and Hammering Hank Greenberg, a pair of old hands at coming through in the clutch for the World Champion Detroit Tigers, are still up to their old tricks and as a result the Bengals are reposing unmolested today at the top of the American league.

The two Tiger stalwarts, who combined their special talents—Greenberg with a grand slam homer and Newhouser with a splendid relief job—to defeat the St. Louis Browns in the final game of the 1945 season for the American league flag, collaborated once more yesterday to vanquish the Browns again, 6-5.

The victory enabled the Tigers to take over undisputed possession of first place from the New York Yankees who dropped into a second place tie with Boston by losing to the Red Sox 12-5.

Newhouser, despite one bad inning in which he yielded all the enemy runs, outpitched his way to his third straight triumph of the young season. He gave up seven hits in pitching his third complete game and fanned seven to increase his strikeout output to 22 in 27 frames.

Greenberg enjoyed a perfect day at the dish with two doubles, a single and a free ticket to first. The reconverted first baseman batted in a run and scored two more, including the important tying marker in the eighth.

A single by Birdie Tebbetts followed a moment later to send in Roy Cullenbine with the winning run.

Greenberg's trio of base knocks raised his eight-game batting average to a gaudy .400 with seven of his nine hits good for extra bases.

Led by Johnny Pesky and Eddie Pellagrini, the Red Sox reversed yesterday's 12-5 beating by pounding four New York hurlers for 13 hits, including a homer, triple and double by Pellagrini and two doubles and a brace of singles by Pesky. Righthander Joe Dobson held the Yanks to nine hits for his second mound triumph.

Brooklyn's dazzling Dodgers moved into undisputed possession of first place in the National league without even having to lift a little finger as the St. Louis Cardinals, who shared the top berth with the Browns, slid down to second spot by bowing to the Pittsburgh Pirates, 5 to 3.

A long home run by Pittsburgh's Ralph Kiner that traveled fully 450 feet literally knocked the Cards out of the lead. Kiner's blow came with one on in the third and tagged Harry (The Cat) Brecheen with his second defeat of the season.

Ken Heintzelman, who handed the Redbirds their other loss on opening day in St. Louis, also was returned the winner, although he was forced to leave in the seventh inning due to a blistered finger.

The Cincinnati Reds squeaked their 1945 nemesis, the Chicago Cubs, for the first time in four meetings this season with a 7-5 victory. Three Cub misuses gave the Reds as many runs in the seventh inning and chased starter Hank Borowy for the second straight time this year.

It was only the Reds' second win over the Bruins in 26 meetings over a two-year span. Cub Rookie Out-

### BOBBY FELLER ON MOUND TODAY TO CLOSE BAD STREAK

Tribe Depends On Ace to Stop Losses At Three Against Chicago

CLEVELAND, April 26.—The Cleveland Indians called on Bobby Feller, their pitching mainstay, today in an effort to silence the Chicago White Sox and snap a three-game losing streak for the Tribe.

Feller, who has allowed only two earned runs in 19 innings this season, beat the Sox, 1 to 0, in a season opener at Chicago, but lost a 10-inning, 3 to 2 verdict to the Detroit Tigers last Sunday.

Joe Haynes, right hander, was given the mound assignment for Chicago. He has fully recovered from a broken ankle received last season.

Hit Hard Yesterday Chicago pounded four Tribe hurlers yesterday for 17 hits in winning a 11 to 2 decision behind nine-hit pitching by Ed Lopat. Lopat, who made three singles in four tries to the plate, shut the Indians out until the eighth when a triple by Les Fleming drove in Pat Seery.

Allie Reynolds started for Cleveland, but left in the third when a Chicago uprising produced five runs. Pete Center, Vic Johnson and Johnny Podgajny followed him to the mound.

Chicago sent another man home in the fifth and repeated in the seventh and eighth. Four hits in the ninth, including a triple by Thurman Tucker, added three more tallies.

Cleveland scored its second and final run in the final frame when Felix Mackiewicz singled to score Ray Mack.

Ruth, Long With a Desire To Try Hand At Managing, May Accept An Offer To Handle Mexican League Club

By TED MEIER  
NEW YORK, April 26.—The one and only Babe Ruth, baseball's retired Sultan of Swat, may get a chance to manage a club in the Mexican Baseball league and thus fulfill one of his most cherished ambitions.

The great Bambino, an idol to thousands of both grownups and youngsters, hinted at this development early today when asked to comment on reports that Jorge Pasquel, president of the Mexican circuit, had contacted him.

"I haven't heard a thing as yet," declared the slugger whose 60 homers in 1927 still stands as a major league record. "I might go down there for a visit and look over the situation."

"But I wouldn't be interested as a player," he added significantly.

### Churchill Downs Set For Kentucky Derby

(By Associated Press)  
LOUISVILLE, Ky., April 26.—Historic Churchill Downs is "all dolled up" with a fresh white-painted face, new finery and flowers, ready to play hostess to a Kentucky Derby crowd expected to pass the 100,000 mark and which, by conservative estimates, is expected to spend about \$8,000,000 during their stay here.

For the first time since the war started, there are imported Holland tulips, between 40,000 and 50,000 of them, equally as many roses, geraniums, petunias—all presenting a dazzling mass of color.

As for the hungry and thirsty visitors, Harry M. Stevens, in charge of the concessions, says he expects to have about 1,500 persons employed on Derby day, May 4. While there will be no hamburgers, Stevens says hot-dog lovers will not be disappointed, there'll be 300,000 of them.

When asked about the liquor and beer supply, Stevens replied hesitantly (and not in an enthusiastic tone or with a Bourbon accent): "Well, we hope to have enough for all who want it."

For the first time, the Downs will have a tote board, equipped with automatic electric machines that keep the turf fans informed of the total amount of money bet on each horse in each race, the odds and the results.

In front of the tote board a new formal garden has been laid out. A new lounge which will seat about 1,000 persons has been completed on the second floor of the clubhouse.

The paddock, completely rebuilt, has been moved to one side of the promenade outside the clubhouse.

The Downs is ready for the Derby crowd—and officials hope it doesn't rain.

### SPORT CHATTER

By HUGH FULLERTON, JR.

BEAR MOUNTAIN, N. Y., April 26.—You'd hardly expect to find a heavyweight fighter's training camp in this semi-secluded spot that is liable to be overrun with kids or holiday seekers from Manhattan at any given moment.

But Bruce Woodcock, British heavyweight champion, and his manager, Tom Hurst, can scatter original ideas about training around as freely as they scatter their "hatches" and maybe this is one of them.

Woodcock does his heavy training about 5 p. m., instead of several hours earlier as most boxers do. He got the habit during the war when he was working in a factory and couldn't train earlier and now Hurst doesn't see any reason for altering that routine.

"And I'll tell you what," Tom adds, "If we stay around here during the summer I'll have him train at night. There's no use using up his energy during the hottest part of the day."

### BAID OMEN

The Bronx's one complaint about Bear Mountain as a training site is that in the historic Hudson valley he can't find a place to do his roadwork without running across signs saying: "This is where the British were defeated."

"Hi say," asks Bruce, "Didn't we ever give them a go?"

### GETTING AHEAD

The Yankees' Larry MacPhail claims that if he hadn't been a duck hunter, Ed Head might never have pitched that no-hit game for the Dodgers.

Seems Larry went duck hunting in Louisiana when he was Dodgers' boss a few years ago and became acquainted with the president of the Abbeville Evangelical League club.

Later the Abbeville man called to offer him first crack at a kid pitcher who had compiled an amazing record so Larry bought Head for \$3500 and a couple of castoff players.

"The fellow nearly oversold himself," says Larry, "when he told me Head could pitch left-handed as well as right handed."

## MACKENZIE'S Column

DEWITT MACKENZIE  
AP Foreign Affairs Analyst

The battle between the United States government and black market operators for 50,000,000 bushels of corn, gravely needed for relief in foreign famine areas, emphasizes the importance of this grain in the present world-shortage of food-stuffs—an importance recognized in America and a few other countries but not generally appreciated in Europe (outside the Balkans) and Asia.

Corn bids fair to save a lot of lives in this crisis, and yet it's a peculiar circumstance that literally hundreds of millions in Asia never even heard of this plebeian grain, and still other millions in Europe know it (if at all) as feed for pigs and chickens. If history repeats itself we shall have to conduct a culinary campaign in those countries to which corn is sent.

Back in the first World War when England was literally hungry because of the fierce German blockade, Food Administrator Herbert Hoover tried to persuade the Britons to use corn meal for food. I was there at the time and recall that he enlisted the aid of the big daily newspapers which ran full-page ads extolling the virtues of corn bread and other corn foods. Detailed recipes were given for the guidance of the housewife.

But would John Bull eat corn? He would not — said it was fit only for pigs and chickens. He preferred to go hungry. Incidentally John calls it maize and uses the word "corn" as a generic term for grain in general.

Under normal circumstances it's probable that much of Europe would adopt a similar attitude, but not these days when the plague of starvation is sweeping across the continent. Give them the corn, tell them how to use it and we may be sure they'll bless the donors.

Of course the Balkans are great growers of corn. In the rich Danubian basin I've seen rolling fields of it so large that they reminded me of Iowa. Romania grows big quantities of corn, and so does Bulgaria. A great deal of it is used for cattle, pigs and poultry but the people of the Balkan peninsula also know its value for human consumption. I had this latter fact impressed on me in surprising fashion in the ancient Bulgarian city of Philippopolis, which gets its name from Philip of Macedonia who used it as one of his frontier posts.

In normal times the Balkans are able to export corn to other parts of Europe for animals and poultry. Statistics aren't available but it's hardly likely that there's even enough corn for local requirements now. War-

## YEAR CLUB

Aggregate age of the trio pictured above is 247 years. They're the House of Representatives' three octogenarians who, despite their years, keep congressmen half their age stepping lively to keep up with them. They are, left, top, Robert L. Doughton, 82, of North Carolina, who holds one of the House's top posts—chairman of the Ways and Means Committee; left, bottom, Joseph J. Mansfield, 85, of Texas, who gets around faster in a wheel chair than most members do on their feet; and the newest member of the "80 Year Club," Jolly Adolph J. Sabath, just turned 80, who is chairman of the House Rules Committee and "Dean of Congress," with 40 years' continuous service.

raised havoc with agriculture in the Balkans and there hasn't yet been time for rehabilitation. Also there has been a drought in that area.

Thus corn for hungry Europe and Asia must come mainly from the Western hemisphere and from South Africa. So if Uncle Sam can keep that 50,000,000 bushels from the clutches of the black-marketeters, he will have made a mighty contribution to the desperate needs of the hungry millions.

The practical limit for transport planes or other large aircraft flying below 20,000 feet is said to be between 350 and 400 miles an hour.

Lydia E. Pinkham's Vegetable Compound does more than relieve monthly pain when due to female functional periodic disturbances. It also relieves accompanying weak, tired, nervous, cranky feelings—of such nature. Taken regularly—Pinkham's Compound helps build up resistance against such distress. It's also a great stomachic tonic.
